

PPPL

PRINCETON PLASMA PHYSICS LABORATORY
ES&H DIRECTIVES
TEMPORARY CHANGE ORDER NO. FY93-1
ES&HD 5003

APPROVED

J.R. Stenard

DATE: 4/1/93

PAGE 1 OF 1

The present version of ES&HD 5003 lists TFTR as a high hazard under this Laboratory document.

TFTR has been reassessed under new DOE Guidance, specifically DOE Standard 1027-92 "Hazard Categorization and Accident Analysis Techniques for Compliance with DOE Order 5480.23, Nuclear Safety Analysis Reports." Under this new DOE classification system TFTR becomes a low hazard.

Until the new PPPL procedure is finalized, please note that while TFTR is classified as a high hazard under this current directive, all future references shall reflect TFTR as a low hazard according to the new classification system.
